

Under The Influence of Giants, In The Clouds

In The Clouds ringtone on your mobile phone
I like the bullet in the water yeah
I like the morning after pill hello
breath in
lose control

i wanna fuck ya in fire yeah
i wanna hold ya till you breath no more
can't hide oh

meet me in the clouds
let me work it out
don't you take it personal, personal
don't you like the control ohh x2

lets tell the people what we have to say
lets tell the people till they can't hear no more
can't cry
more and more

we never tried to be the leading voice
we couldn't help it cuz you gave us no choice
can't fight oh

meet me in the clouds
let me work it out
don't you take it personal, personal
don't you like the control ohh x2
