

Under The Influence of Giants, Lay Me Down

Wondering how i figured it out
that i just waited for you there
wondering how i figured it out
now i'm just stuck inside your stare
wondering how you figured me out
i'm just a nobody who cares

say....
only i can say so oh
alright ok lay me down
she's good all the time all around
alright ok lay me down

give me a sign say it's ok
need it to make it through the day
give me your hand send me your soul
i need it so i can feel control

say....
only i can say so oh
alright ok lay me down
she's good all the time all around
alright ok lay me down

baby you can bring me down
if only i can make you found
baby you can bring me down
i promise not to make a sound

alright ok lay me down
she's good all the time all around
alright ok lay me down
if she's good then i like how it sounds
no no no
