

# Under The Shadow, I Already Miss You

Look to the sky  
Look into the mystery of my eyes  
See the tears of life cried  
It is because of those tears he died  
Look inside my heart  
See where pain ends and love starts  
I believe it starts here  
Life is proceeding without fear  
Now wait and see  
Now wait believe

I already miss you  
I missed you before the stars were made  
I already miss you  
I missed you before I knew your name

Look to the sky  
See the stars that burst with light  
I didnt take the time  
But now I realize how beautifuly they shine  
Look inside my heart  
See the pain end and the love start  
I hold you close to my heart  
I belive this is where love starts  
now wait and see  
now wait and see

I already miss you  
I missed you beofre the stars where made  
I already miss you  
I missed you before you even came
