

Under The Weather, Brain Candy

Soaked in logic I'm sick and lethargic
My face is bloody and my eyes get fuzzy
when I wake up at night

Who are you? To bring me gloom

I am under the weather under the stars
looking for heaven from inside a capsule
white and blue's my favorite thing to do

I'll fast for seven days just to pass the time away
I'm sick and tired of being tired and sick
I'd stop but I already quit
