

# Undercroft, They Kill For Me

Infernal angels take my hand  
Through holocaust  
In the bloody way  
To the final battle  
They kill for me  
They kill for me  
Pieces of flesh get together  
Fragments of bones conjugate  
To form my legion  
Against god's law  
Army risen from the graves  
To unmercifully mutilate angels  
To regain a place on earth  
With the king of darkness  
The war has no limits  
They need much power  
My alliance with the angels from the abyss  
Secures his power  
Nazarene's emissaries  
Try to stop the massacre  
Everything is useless, everything will fall  
To my feet, the immortal rites  
In the dark, dark side  
My power will never fall
