

# UnderGround Fly, Celebration

just forget who you are  
just forget what you've done  
and if you'd go outside  
just don't forget to smell well  
wear your smile, wear your smiles ...

tonight we'll bleach the darkest souls  
we're hiding bruises under ironed shirts  
we're building (a bridges) to the sky, from stony hearts  
and they're making the tricks  
making the tricks...

celebration...

I've a halo above  
you've a halo above  
everybody has a halos overhead

celebration...

take me to heaven...  
can't you see my halo...?

celebration...
