

Unearth, Bloodlust Of The Human Condition

we feed this hunger for horror
cold is the human heart
is the human mind
all born with sickness and impurity
bloodlust of the human condition
dark fears are wanted
spread it so these eyes
can capture doom thirst for destruction
will feed this firestorm until we're gone
i can no longer close my eyes
this is our mortality
taken away is our hope
clip our wings
crush our dreams
this is a part of us all
clip our wings
crush our dreams
forever a part of us all
we feed on horror
sold is the human soul
for crimes in nature
it's our bloodlust condition
dark fears are wanted
spread it so these eyes
can capture doom
thirst for destruction
will feed this firestorm
until we're gone
we feed on horror
we're drawn into these open wounds
the crowds all gather
to feed their bloodlust
