

# Unearth, The Great Dividers

It's true there were better ones  
That led their people  
It's true there were better ones  
To lead their country  
It's true there were better ones  
Who cared for this world  
It's true there were better ones  
But who are we to change  
Without the strength of all  
The nations will crumble

Feed lies for war  
bring the nations to it's knees  
Risking worldly structure and integrity

The balance of our kind  
Controlled by hatred, distorted truth and lies  
United is the only way to stand  
United is the only way to stand

Leaders of the free world  
Lead into the land of the un-free

God sent politics  
Hammered down with a fist too bold  
Play the council of pawn  
in the quest for total control

Free us of this Hate  
Free us from this Hate

Take over the world  
Does hate mean Freedom?  
Divide our home  
Does hate mean freedom?  
Take over the world  
Does hate mean freedom?

Does hate mean freedom?  
Take over the world, divide our world.
