

# Unida, Wet Pussycat

When she said the bones  
On - High  
When she said the dog  
Gone - High  
Blast thru the front  
Door - High  
Blast thru the back  
Doo - You're all mine - OH

I am the one day  
I am the sun lay  
Only if you and in your head  
Something is wrong babe  
Just come to me said  
I am the only one for you, Yea

When you move your hips  
Babe, so fine  
When you move your head  
Babe, looking alright  
When you shake your ass  
Babe, your looking so fine  
And when you said your heart breaks  
You better shake it down

I am your only just because lonely  
I am the one because you're true  
I am your only, something is lonely  
Something is wrong because you're true  
You are my only, something is gone now only because  
And if you're true

You got me right, you got  
You got me right, yeah, you got me
