

Union 13, Try

Life is joke or at least that's how we treat it
Common sense is scare now that we really need it
The scales tip on stupid
The ignorant outnumber those still care (STILL CARE)

(Chorus)

It didn't have to end this way
With everyone in conflict tomorrow is another day
Let's see what grows out it as we watch from the other side
mistakes outnumber chances
space expansion will go on
with or without all of us around.

The answer is really simple
A forward motion not a reversible spindle
powered by violence and bad thoughts all around
for your sake and mine
Take a deep breath and TRY!
