

# Union Peach, On My Own

Baby

No, it's not that I don't care

Maybe

It's a change in atmosphere

And I've seen the signs I know

That it's right for me to go

I'm on my way

So when you think of yesterday

Remember all the things we said

And through the course of history

I hope you'll still remember me

And there can't be no other way

There's nothing left for us to say

I've got to see it through alone

I've got to do this on my own

Baby

You could say that it's unfair

Maybe

I've got nothing left to share

And I've seen the signs I know

That it's right for me to go

I'm on my way

So when you think of yesterday

Remember all the things we said

And through the course of history

I hope you'll still remember me

And there can't be no other way

There's nothing left for us to say

I've got to see this through alone

I've got to do this on my own

On my own.. on my own..

(Ohhhhh...Oh)

So when you think of yesterday

Remember all the things we said

And through the course of history

I hope you'll still remember me

And there can't be no other way

There's nothing left for us to say

I've got to see it through alone

I've got to do this on my own

On my own
