

# Union Underground, Bitter

Twist me with your motivation  
You make me sick  
Won't you feel my frustration?  
It's ten feet thick

All I see is apathy  
In this world I won't be

I will be a better man  
I won't be a bitter man

Twist me with your complication  
This time it stuck  
Curse me with your lips  
You wretched f\*\*k

Out of me am I free  
In this world I won't be
