

Union Underground, South Texas Deathride

Take a look in my mind and justify
Hell, I might even sympathize
But why must you f**k with these things
In my head for so long that I feel I could break
Never forget your lies
Hypocrisize
Five million might change your mind
But why must you f**k with these things
In my head for so long that I feel I could break

So c'mon c'mon c'mon get up get up
South Texas deathride you motherf**k
So c'mon c'mon c'mon get up get up
South Texas man I'm livin' it up

So what if I was your guide
South Texas deathride
Like I said I might sympathize
But why must you f**k with these things I believe
Man it's guilt by association
