

Union Underground, The Friend Song

Living in fear f**k pretend
Makin' it clear this is sin
24 years struggle within
Lie my dear lie my friend

So sad
Livin' in me complicate
What's it gonna be so irate

Choke on me asphyxiate
So sad too bad

All I see all my hate

I'll be the one
kill you for fun
This song is dumb

Hope you never call again
You said you were my friend
Comin' undone live with this
My affliction's killing this

Beautiful one state of bliss
Bury this one for a kiss
