

Union Underground, Until You Crack

Kiss your mother now
I think you should
Kick you while you're down
You knew I would

So I'm wearin' thin
Same old trip again
Face numb heroin
Same old trip again

I said how long (how long)
I said how long (how long)
I said how long (how long)
Until You Crack
x2

Drag your sister down
You never learn
Teach your brother how
and watch him burn

So I'm wearin' thin
Same old trip again
Face numb heroin
Same old trip again (trip again) x2

I said how long (how long)
I said how long (how long)
I said how long (how long)
Until You Crack
x2

I feel you comin'
I see your red flower loveliness
You Shoot the fun
I feel your black hollow consciousness
I turned you on to what they call the fuckin' devil's son
I kiss you all the feeble and the damage done

Your paranoia is starting to bore ya'
The feeling is so that
I'm sick and I'm breaking

Your paranoia is starting to bore ya'
My bleeding is or ya'
So that I'm dead

I said how long (how long)
I said how long (how long)
I said how long (how long)
Until You Crack
x4

I said how long
