

# Union Youth, Dressed Like Dolls

Don't try to keep the summer just try to see all of it  
Don't try to keep me sober it's a bad idea  
Your dream of love is over I promised not to hurt you  
Sleep tight I take care of you when I'm there

I'm getting through like no one else  
We don't need nobody I'm telling you  
We're dressed like dolls I can't wait cause  
I need more I want yours

They said it's hard to live when no one is there to listen  
They speak of love and wisdom they never regret a thing  
Don't follow me don't come with me  
Don't follow me I've got nothing to say  
I cut my nails cause they've been too long for me

I'm getting through like no one else  
We don't need nobody I'm telling you  
We're dressed like dolls I can't wait cause  
I need more I'm dressed like dolls - like dolls

I'm getting through like no one else  
I'm getting through we're dressed like dolls  
I'm getting through  
Leave the world tonight  
Leave the world behind  
Leave the world tonight
