

# Unitopia, Love Never Ends

She lifts me up and takes me somewhere I've never been.  
She reaches out and touches me, like no other.

This feeling never ends  
This feeling never ends (feeling it in my heart)

Our love takes me to a higher place  
My love, your love

Eyes shining like the sunlight with that smile she sends to me  
She is my future, and my friend, we are ever meant to be

Love never ends  
Love never ends
