

# Universal Poplab, Heart Apart

It must be quite hard to see what's moving inside me  
Smiling, saying all the things I know you want to hear  
Coming home, being good  
Coming home, being good  
Coming home, being good  
Understanding nothing's understood

I feel so alone when I'm with you  
I can't believe now we are two  
What to do when you know  
Your hearts are parting  
Your hearts are parting

Something must be wrong with me 'cause I just cannot feel  
(I just cannot feel)  
Happy though the life I asked for is printed out for me  
Coming home, being good  
Coming home, being good  
Coming home, being good  
Understanding nothing's understood

I feel so alone when I'm with you  
I can't believe now we are two  
What to do when you know  
Your hearts are parting

Feel so alone when I'm with you  
I can't believe now we are two  
What to do when you know  
Your heart is leaving home

Being bad, leaving home  
Being bad, coming home  
Being good  
(When I'm with you)  
Understanding nothing's understood

I feel so alone when I'm with you  
I can't believe now we are two  
What to do when you know  
Your hearts are parting

Feel so alone when I'm with you  
I can't believe now we are two  
What to do when you know  
Your hearts are parting  
Your hearts are parting

(Hard to part when I'm with you)  
(Hard to part when you know)  
(Hard to part when I'm with you, way too hard to part)  
(What to do when you know)

Your hearts are parting  
Your hearts are parting
