Unjust, Throwin Pennies

I don't want to wait outside
Never coming down
Lead the way
Lead the way
I've been tied down for too long
Reaching for the sound
Feel the way
Be the way

I don't want to be the dog
Faking out the mouth
Lying ways
Flying days
In the eyes of the world
I'm never coming down
Feel the way
Live the way

The watchful eye is gold.. in your soul The watchful eye is gold.. in your soul

No matter what you say It won't faze us at all No matter what you say The same will go Wave to the lights of the fame you've installed Wave it goodbye

I don't want to wait outside I'm never coming down Lead the way Lead the way I've been tied up for too long Reaching for the sound Feel the way Be the way Live the way...
