THE ASTEROID LIGHT

(GCCG) C - - - / F G C - : //

My father was the keeper of the asteroid light  
And he slept with a Martian one fine night  
From this union there came three,  
Two were mutes and the other was me.

Yo ho ho the jets run free  
Oh for the life at the speed of c  
One night as we were sailing the blue  
And singing the well known spaceman's tune  
A voice came echoing out of the void  
And there sat my mother on her asteroid.

CHORUS

What has become of my children three  
My mother then she asked of me  
One is on exhibit in a zoo on Venus  
The other keeps a telepathic link between us

CHORUS

Then the deuterons flashed in her hydrogen hair  
And I looked again and my mother wasn't there  
But she telepathed angrily out of the night  
To Hell with the keeper of the asteroid light.
