

Unknown Girls, Baby tell

BRIDGE

My life, my world
My love, my word
I know
That the dreams come true
My room, my class
And you, I know everything
It will be fine
I can't sleep alone
When I close my eyes
I see your face
People say me
Be careful for him
And I laugh in their faces

CHORUS

Baby tell
Can I have a chance come true my dreams?
Is my laugh not stupid?
I about you know so little continually
Alone say, please (say me)
It all is with you must be compiled?
It never happened
I would disconcert you suddenly
You do not give reasons to me about jealousy
people don't laugh oddly already
you convinced them to me surely

CHORUS

Baby tell
Can I have a chance come true my dreams?
Is my laugh not stupid?
I about you know so little continually
Alone say, please (say me)
It all is with you must be compiled?
Baby tell
Can I have a chance come true my dreams?
Is my laugh not stupid?
I about you know so little continually
Alone say, please (say me)
It all is with you must be compiled?
