Unleashed, Berserk

One thousand years ago In this land of ice and snow Man lived with hatred just like me The wrath lives on eternally

Berserk

Feel no pain, there's only hate No regret, it's all too late I see your face, it's all I need To grind you down and watch you bleed

Berserk

My mind is blank, I am insane You cry for mercy, cry in vain I leave you trashed, for all to see Berserk in me, eternally
