

# Unleashed Power, It's About Hypocrites

the grimaces of surprise

turn around no mass no size

mechanical entity

conscience with no gravity

idealism of youth

vanished along with the truth

the message they don't believe

subconsciously they deceive

abhor the changing of time

a government in decline

habitant in a void space

hypocrites reside in this place

it is all about the hypocrites

who mock with our intelligence

the double morals become the norm

not telling the truth propaganda

they have forgotten the real reasons

the seats they uphold twisting the form

the traitors and the thieves immune to the law

bureaucracy and bigotry that won't thaw

interest shifted away from the objective

vanished enthusiasm and incentive

mandatory involvement

in the game they repent

exercise their wrongful force

their power we must divorce

it's all about hypocrites

whose lies and deceit won't quit

impudent glow from the screen

the joker jests in this scene

send a defiled delegate  
so their lies will propagate  
the grimaces of surprise  
turn around no mass no size

it is all about the hypocrites  
who mock with our intelligence  
the double morals become the norm  
not telling the truth propaganda  
they have forgotten the real reasons  
the seats they uphold twisting the form
