

# Unleashed, Revenge

Doomed for all eternity  
Cause I never could agree  
A normal life I will deny  
Do not bother asking why!  
From the shadows where I dwell  
Here's my way to give you hell

## Revenge

Years have passed and I'm still alive  
Censorship is a fascist lie  
A thousand times I'll rise again  
You can't escape my last revenge  
For all the times you've let me down  
I'll crush your face into the ground

## Revenge

Come forth on precious hate  
My vengeance is your fate  
Come feel my last revenge  
So painful until the end
