

unloco, Less Of

Less of I but more than you
I'm less of nothing again
I take my life and what I do
I feel I'm the last to be saved

What would you say
That everything here
Must soon change
But you think the machine
Is a man in the back of my head
And the lies, the lies that can be the truth if you
Just want them to be
But you'll still push me down
You just

GET BACK
Doesn't matter what I say
Or how I feel
You're out of line
So just get back, get back

Let, you just can't
Let, you just can't
Let, you just can't
LET IT GO, LET IT GO

And if I see his face
And I do nothing for this
Would you think less of me
If I didn't raise my fist
All the cracks in the floor
Make this life a game
For you to push me down
For you to

GET BACK
Doesn't matter what I say
Or how I feel
You're out of line
So just get back, get back

Let, you just can't
Let, you just can't
Let, you just can't
LET IT GO, LET IT GO

Try to understand
LET IT GO
Doesn't matter what I say
Or how I feel
You're out of line
So just get back, get back
LET IT GO
Doesn't matter what I say
Or how I feel
You're out of line
So just get back, get back

Let, you just can't
Let, you just can't
Let, you just can't
LET IT GO, LET IT GO
