

# unloco, No One

look back inside  
will i ever relize  
that this day, this man  
was me?  
but then i suffocate  
everything that i relate  
it's not the same  
life that we knew it

i bleed my life  
i shed my skin  
i'm dying deep within  
cause everything's my fault  
but then i suffocate  
everything that i relate  
it's all your life  
that we knew it

yeah i'm finding out that your nothing better  
yeah i'm finding out that you just don't care

left outside, left to dry  
so know all the reasons  
why everything's my fault  
but then i suffocate  
everything that i relate  
it's not the same  
life that we knew it

yeah i'm finding out that your nothing better  
yeah i'm finding out that you just don't...

i can find out that you are nothing better  
and i can find out that you just don't seem to care  
not here, not here, not here it's all  
you give no chance, it's all from me  
IT'S ALL I GOT!

yeah i'm finding out that your nothing better  
yeah i'm finding out that you just don't care
