

Unlord, Torch The Bastards

(Triumphant warmarch)

Bringer of Sword

Bringer of Flames

Bringer of Steel

Bringer of Pain

The galloping hordes, marching and slaying

Pounding hooves of death

Apocalyptic gladiator, leading the troops

The enemy, we behead

Bringer of Sword

Bringer of Flames

Bringer of Steel

Bringer of Pain

Master, guide me away from the light

Serpent, lead the people into the night

In sword we trust, your god is denied the sheer power you exhume

desecrate the christ in its tomb

overwhelm the bastard, the bastard whores

and set the controls for the Unlord
