

# UnSuNg ZeRoS, The Best Time

I notice my fingers start to tremble  
I feel butterflies that meet  
with knees that are much too weak for standing  
and lungs that can barely breathe

oh, the time passes by  
the colors, they seem so bright  
all the clouds disappear and it seems that the sunlight shines  
through the night

stay up until all the energy fades  
anything to hold on so it won't slip away  
remember everything that makes this a wonderful day

when I awoke in deep blue water  
with my head about to sink  
I never imagined what was coming could be such an amazing thing

oh, the time passes by  
the colors, they seem so bright  
all the clouds disappear and it seems that the sunlight shines  
through the night

stay up until all the energy fades  
anything to hold on so it won't slip away  
remember everything that makes this a wonderful day

I don't think it gets better than this  
If you found the world I'd still probably insist  
on living this one out for good  
use it for my whole life if I could

Am I awake or sleeping?  
because this feels like dreaming

here in a world that's the way that it should be  
If you find me hard to find, then I'll tell you just where I will be

stay up until all the energy fades  
anything to hold on so it won't slip away  
remember everything that makes this a wonderful day

I don't think it gets better than this  
If you found the world I'd still probably insist  
on living this one out for good

It's a beautiful time, It's a wonderful time, It's the best time that I've ever had and it's mine  
It's a beautiful time, It's a wonderful time, It's the best time that I've ever had and it's mine  
It's the best time that I've ever had and it's mine  
It's the best time
