

# Until The End, Buried

You can cover my eyes  
I will never be blind  
I will never be deceived  
You're gonna be buried and blind

Take these words to heart  
Theres nothing more pure than this  
Watch me fall apart, I've failed  
And left you the shell of a man

You have no f\*\*king heart  
Theres nothing more true than this  
I'll rip your life apart, I swear  
There is nothing more true

I will never be blind  
I will bring the end  
I will destroy your faith

I will not let you remain  
Ignorant to the lies  
I will not let you  
Down ever again

I will never fail  
I will never be wrong  
I will never fail  
I will never be wrong again
