

# Until The End, Driving This Car Head First Into A

With the concrete to my back, i finally feel free.  
I have only one problem, You're in the passenger seat.  
I'm never looking back again, i've failed enough before.  
Only one more problem before i go and i'm ending it right now.  
I'm driving straight at this wall.  
I'm ending myself here.  
My problems will be over soon  
because you're in the passenger seat.  
Accelerate, Tempt fate.
