Untoten, Abdomination

Let me kiss you the kisses of my mouth
All that I knew where I might find you
I have compared you tell me, rightly

Hear me king of the infinite king!
Hear me king of the infinite spaces planetmover
Hear me sinner of the chaos and panic my betrayers
You rule every servant and you open up the gates to be
- among us !
You shine like a diamond under a dark sun
Lord of the gate

Let me kiss you the kisses of my tongue
Oh that I knew that I might find you
I have compared you tell me, rightly

Hear me king of the infinite king!
Hear me king of the infinite spaces planetmover
Hear me sinner of the chaos and panic my betrayers
You rule every servant and you open up the gates to be
- among us !
You shine like a diamond under a dark sun
Lord of the gate

Let me kiss you the kisses of my mouth
All that I knew that I might kill you
I have compared you tell me, rightly

Hear me king of the infinite king!
Hear me king of the infinite spaces planetmover
