

Unwritten Law, Elva (It's Alright)

I can feel the world up on my back
I got sixteen people breathin down my neck
And its kinda to keep your head afloat
When the rain won't stop
And your face is soaked
But Im alright, alright
But I'm alright, alright
So just hang on, cause I wont be long
Just sing that song to me
Goes
I'm in love with you in love with me
Cause I'm in love with you in love with me

And I can feel your breath up on my neck
One last caress
I'm a nervous wreck
And its kinda hard to keep your head afloat
When the rain wont stop
And your face is soaked
But I'm alright, alright
I'm alright, alright
So just hang on, cause I wont be long
Just sing that song to me
Goes
I'm in love with you in love with me
Cause I'm in love with you in love with me

I'm alright, alright
I'm alright, alright
So just hang on, cause I wont be long
Just sing that song to me
Goes
I'm in love with you in love with me
Cause I'm in love with you in love with me
Cause I'm in love with you in love with me now
Yeah I'm in love with you in love with me
