

Urban Dub, Guillotine

What's done is done and we've crossed the line,
your indecision is taking over every time,
your pride, my anger,
our situation is worst than ever!

We've taken this too far,
we better run.
with your arms wrapped tight arround my neck,
i close my eyes
and i sink and grasp for breath.

Chorus:
All hope is gone, and since your never gonna change
i'll erase your taste and let you go,
slowly, suddenly i wasn't enough,
your lust disguised as love!

We've taken this too far,
we better run.
with your arms wrapped tight arround my neck,
i close my eyes
and i sink and grasp for breath.
She's with someone new.. 2x

Chorus

refrain:
She's with someone new.. 2x
This whole time with me,
was just another lie
threw my feelings up and down
your a just a little inconsiderate.
this whole time with me just another lie,
was just another lie, lie..

What's done is done and we've crossed the line,
your indecision is taking over every time,
your pride, my anger,
our situation is worst than ever!

We've taken this too far,
we better run.
with your arms wrapped tight arround my neck,
i close my eyes
and i sink and grasp for breath.
