

Urban Dub, Reveal The Remedy

This separation is killing me
You say I should've thought that
Before I did what I have done
So easier to put the blame on you
I should've looked inside of me
But it's all in vain as I try to explain
She pulls away...

We could've been more
Can we ever have these feelings again?
We should've been more
Maybe in time we'll realize that maybe
Fate reveals the remedies
Making it feel like it will be like the first time.

Still the vision on my mind
Cuz now I realize it's
so damn hard to give you up
no way out of this hole

can we ever have us back again?
let's not start and put the blame part away
can you honestly say
you can see me with another one?
Another one, another chance with you
I want more, I want more, I want more.

Regretting it now
Can fate reveal to me?
The questions to why?
Reveal the remedy.

Could've been more
Should've been more
Maybe in time we'll realize that maybe
That fate reveals the remedies
making it feel like it will be like the first time
just like the first time.
