

# Urban Rock, Soul

Dont f\*\*k with my heart  
Its hardly been used  
Dont want it all chewed up  
Or battered and bruised

Dont waste it away  
Because i only have one  
Down want to look down  
and see that its gone

I hope you understand  
While it is in your hands  
These rules cant be broken

I'll be on the warpath,  
Searching for your soul

You cant neglect my heart  
I need it to keep  
Dont want to go wandering like  
Little beau peep

Id get really angry  
And maybe explode  
Dont f\*\*k with my heart  
Dont lighten my load
