

# Urban Rock, Understand

Do me a favour and show me love  
Why we need it and where it belongs  
How it affects us, Makes push into shove  
And make me really understand love

Put it in as many words as you can  
Package it up and place it in my hands  
Where do you find it and from what does become  
And make me understand love

People always try to explain  
That love is something positive to gain  
How can i be waiting in line  
When its something i need to find

Do me a favour and direct me to love  
How it affects us, Makes push into shove  
I need it explaining cos its getting real tough  
Help me understand love
