

# Uriah Heep, Feels so cold, so alone An empty stage

You came on like an angel  
I didn't see the evil in your eyes  
I could see, but I was blinded  
Oh, believed in lies  
You hit me with your promises  
You shot me, I fell to the ground  
You're coming's on tomorrow  
When I looked, you were  
Nowhere to be found  
You set me up right from the start  
Strip me of my dignity  
You got me straight through the heart  
I never did stand a chance  
You got me straight through the heart  
You cut me and left me for dead  
You promised me a heaven  
Turned out to be but hell all the time  
The truth that you're pretending  
Was just a chorus of lies  
You set me up right from the start  
Strip me of my dignity  
And got me straight through the heart  
I never did stand a chance  
You got me straight through the heart  
You cut me and left me for dead  
You cut me and left me for dead  
You came on like an angel  
Just like an angel  
You set up  
You got me straight through the heart  
I never did stand a chance  
Got me straight through the heart  
You cut me, you left me  
Straight through the heart  
You never gave any chance  
Got me straight through the heart  
I'm bleedin', you're leavin'  
Got me straight through the heart
