

Uriah Heep, Showdown

It's gonna happen before too long
It's getting hard to tell who's right and who's wrong
I can see it coming so I gotta be strong
There's gonna be a showdown
There's gonna be changes in this town
We're gonna see a showdown
A time's gonna come in the future when
A whole lotta people gonna think again
We're gonna keep right on till you break and then
There's gonna be a showdown
There's gonna be changes in this town
We're gonna see a showdown
Do you want to be out of touch, only you can decide
For something different you're out of luck
'Cause on we will ride on, we're gonna ride, ride on!
Oooh ride on! C'mon!
The music explodes like a gun in your hand
We're gonna give you more than your head can stand
Then we'll sit down and talk man to man
There's gonna be a showdown
There's gonna be changes in this town
We're gonna see a showdown
There's gonna be a showdown
There's gonna be changes in this town
We're gonna see a showdown
Showdown, showdown
(repeat to fade)
