## Uriah Heep, Step By Step

It's alright, it's not wrong To sometimes feel You're just hanging on On those days when Your feelings are low Don't hold back Just let those show If you want my time and devotion You've got to give me Some of your emotion It's not too much, too much to ask If you want this love to last Born with open eyes But you're blinded by confusion You're born with strength inside Let's do it step by step Into tomorrow We can make it if we try If you talk to me, walk with me There's no reason why We can do it step by step Into tomorrow with open eyes So come on talk to me Just walk with me You can do it if you try One step, one step at a time One heart beatin' with mine Nothing gained, nothing ventured Nothing won, no risk no loss In this world of indecisions There's a bridge we all must cross
