## Uriah Heep, Tears Of The World

Come and share my moonlight stair Things of beauty everywhere So much luck it isn't fair 'Cos the tears of the world Keep falling

I got the best of everything A better world I could not dream You should see what I have seen As the tears of the world keep falling

Ah ah ah ah ah ah The tears of the world keep falling Ah ah ah ah ah Until we stand together Ah ah ah ah ah The tears of the world keep falling Ah ah ah ah ah Until we stand together

So much wealth on every face You're in the fight to win the place Or are you just a hopeless case as the tears of the world keep falling

You'd like to think that's not cruel Design your future by their rules You worship at the feed of fools While the tears of the world Keep falling

Ah ah ah ah ah ah The tears of the world keep falling Ah ah ah ah ah Until we stand together Ah ah ah ah ah The tears of the world keep falling Ah ah ah ah ah Until we take control together

We pushed our way to reach our goal Turning silver into gold We need to take the complete control As the tears of the world keep falling

The great divide we know so well We'll be there at the last farewell Unless we break this living hell As the tears of the world keep falling

Ah ah ah ah ah ah
The tears of the world keep falling
Ah ah ah ah ah ah
Until we stand together
Ah ah ah ah ah ah
The tears of the world keep falling
Ah ah ah ah ah ah
Until we learn to stand together
