

# Urma, Off My Wave

Never bothered you....never needed you  
Never wanted you to save me...  
Keep your hands away  
Let me with my faith  
Keep your angels straight off my wave

So now, you're in here....trying to save  
Remains of those days we once shared  
You seek through my eyes....feel it's all gone  
`Cause I'll never change

Never crossed your path...always n my track  
Never searched in you the feelings...  
Keep your hands away  
Let me with my faith  
Keep your angels straight off my wave

So now, you're in here....trying to save  
Remains of those days we once shared  
You seek through my eyes....feel it's all gone  
`Cause I'll never change
