

Urma, What I Am

What I am is not enough
To help you dreaming
What I give it does not heal
Your scars are bleeding
What I take from you it hurts and keeps me mad...
I should be giving...
What I am is not enough

What you need is out of us
Can't reach it smiling
When you fall I kiss the dust
I guess we're sharing...
When I'm down you dive with me together till we reach the bottom
What I am not enough

So what you need from me?
You should not buy what you can take for free
I'm so much less that what you're looking for
You see me better ... Well, I have seen it all
I am not enough
