

# US5, Round and Round

(Jay)

She likes to party  
from night 'til dawn  
no doubt about it  
she's got what you want  
she'll chew you up, boy  
you better watch out  
so give up, better stop  
she'll drop you from the top

(Richie)

That girl means trouble  
there's no way out  
she'll take a taste  
and then she'll throw you out her mouth  
she's not your lover, you better wake up

(Jay)

Cause it may be too late,  
for you to get out

Refrain:

Round and round - she likes to boogie  
drop you down into the floor  
Round and round - she likes to boogie  
make you scream and beg for more  
round and round  
round and round

(Chris)

She's never sorry, she's got no fear  
take all your money and then disappear  
don't play with fire  
you gonna get burnt  
so give up, better stop  
she'll drop you from the top

(Izzy)

That girl means trouble,  
there's no way out  
she'll take a taste  
and then she'll throw you out her mouth  
she's not your lover, you better wake up

(Chris)

Cause it may be too late,  
for you to get out

Refrain:

Go..

Round and round - she likes to boogie  
drop you down into the floor  
Round and round - she likes to boogie  
make you scream and beg for more  
Round and round  
Round and round  
Round and round  
Round and round

(Vincent)

She's the badest girl you've ever seen,  
she will hunt you down and chase you in your dreams  
I don't need another love like that  
are you ready ?  
are you ready to believe ?

(Jay)

I went up to the party  
and saw a wicked girl  
she turned my life from inside out  
and left a shaded world  
if only she will call me  
my life would be an ease

Goes up and down  
round and round  
stick to the beat  
Round and round - stick to the beat  
Round and round - stick to the beat  
Refrain:  
Round and round - she likes to boogie  
drop you down into the floor  
Round and round - she likes to boogie  
make you scream and beg for more  
Refrain:  
Round and round - she likes to boogie  
drop you down into the floor  
Round and round - she likes to boogie  
make you scream and beg for more  
She takes me round and round
