

Useless ID, Bring Me Down

Everyone gather round
the fight's about to begin
It's me against the whole wide world
knowing that there's no way I could win

It's been a while since I could come up with anything new
and make it seem alright
You know it's never been.

Once again (oowo oowo ho)
I need to run away (oh ho)
from everyone all around
until it's stops bringing me down

Remember all the days we had to figure out what we want?
But now those days have passed me by
Why is it so hard to get around?
I'm losing all control over myself and I'm down to the floor
Now, I don't even know
who I am talking to anymore

Once again (oowo oowo ho)
I need to run away (oh ho)
from everyone all around
until it's stops bringing me down

(guitar)

Once again (oowo oowo ho)
I need to run away (oh ho)
from everyone all around
until it's stops!
