

Useless ID, Suffer For The Fame

Suffer For The Fame

Don't surrender to the world
Let me know you won't
Suffer for the fame

Sweetness is leaving me again
I'll remember when
When we used to be

Bring back the feeling
Oh, where are we now?
Stuck in a moment till we meet again
Lose star connection to better us all
Then maybe something will change

Face, listen to the one
Voice inside the crowd
Make somebody proud
It's too late to leave me with a gift
But i'll leave you with this
A song on how it is

Bring back the feeling
Oh, where are we now?
Stuck in a moment till we meet again
Lose star connection to better us all
Then maybe something will change

I don't want it in my world

Bring back the feeling
Oh, where are we now?
Stuck in a moment till we meet again
Lose star connection to better us all
Then maybe something will change
