8701

Man it's been a long time coming

But I never forgot about you

I'm here

Yeah, we've traveled the world

Seen a lot of places, so many faces

We had a good time - we've grown together

Who would've thought we'd stay down this long, heh?

This is my chance to share my world with you

And I know you're gonna like it

Are you ready?
