

Utopia, Umbrella Man

When the sun just refuses to shine on through
And it's cats and doggies all over you
You need some protection so what do you do
See the umbrella man
Go and see the umbrella man
When it's raining - umbrella man, umbrella man
You can see him when it's sunny, when the rain comes down
You ought to find a corner where he's always found
A reflection in a puddle, just turn around
To see the umbrella man
Go and see the umbrella man
When it's raining - umbrella man, umbrella man
There are some things in life on which you can depend
Don't try to guess when it'll rain again
You don't have to worry 'cause you've got a friend
Come see the umbrella man
I will be your umbrella man
When it's raining - umbrella man
Go and see the umbrella man
Don't forget the umbrella man
When it's raining - umbrella man
I will be your umbrella man, umbrella man
