

# V-Corps, Fly Away

Try to hear  
the world around  
that whispers of fear  
that tears you down  
Take the drug  
and say that you're  
alone in there cuz' it's to far  
Hide you're scars  
& close you're eyes  
shut your mouth be mezmized  
Now it's cool  
but what is next?  
You need a shot  
your heart needs rest  
now it's time  
of being hit  
you hate yourself  
you need that shit!  
Ref. You don't cry cuz' it's too hard  
you can fly but than you fall  
your mind has tricked you thousand times  
but all you want is to get more  
Don't say that you're the one to fail  
prove yourself that world is not  
only about flying away...  
Take the drug  
and say that you're  
alone in there cuz' it's to far  
Hide you're scars  
& close you're eyes  
shut your mouth be mezmized
