Where you been all my life?
You got some junk in your trunk
Why you built up
You got a big b-dunk-a-dunk
You're the bad mama-jama
You gotta shake your rump quick
Super fine, super bad, super sexy
You're super thin
I see this little cutie
She caught my eye, my eye
I can't help it cause she's so fly, so fly
Like a melody
She keeps spinning in my head
Cant get her out
She's so fine, so fine
I really want to get her name, her name
Try to see whats good with her, with her
She so bad like a star
I can see us hooking up
And havin some fun
I dont
Deny that she not gone be mine
Cause shes a angel
Good rich shes drop dead gorgeous
From head to toe like that
I know
When I get her with me
Get one dance thats all I need fo sho
Fo sho

She tried to play slick
Try to play hard-to-get
Got me on the floor
I had to make a move
Got close up
It was just her and me, her and me
I was feeling her like 1 2 3
Before I knew it
She was all over me
Talking bout
