

# V8, Little Boy Song

Once upon a time, when I was really young  
Watching the stars I've been dreaming all the time  
My mother always said  
Son please come back to Earth  
You've got to keep both your feet on the ground

I've got a passion  
Appetite  
Got my music  
And my guitar  
Hey there is a place to start!

Deep in my soul, I'm just a little boy  
Playing with my toys its just never getting old  
I've got some stories to tell, about heaven and hell  
Spacecraft and aliens this is my fairy tale

Long years has passed and I didn't grow up  
Do what you like is my way of life  
All my friends are saying  
Man you will never change  
You've got to keep both your feet on the ground

I've got a passion  
Got the drive  
Got my music  
And my guitar  
Hey there is a place to start!

Deep in my soul, I'm just a little boy  
Playing with my toys its just never getting old  
I've got some stories to tell, about heaven and hell  
Spacecraft and aliens this is my fairy tale
